

# DUNASYS

## DUNADIAG

## COMPACT CONNECTED DATA LOGGER : DUNADIAG

With DunaDiag-2, access the simplicity of a complete, compact and high-performance system for collecting, analyzing and transmitting critical data from your vehicle or fleet in real time

### Ultra-compact

9 x 6,7 x 3,1 cm  
Weight : 100g

### Resistant

Resistant to extreme temperatures from -30°C to +85°C

### Cost-effective

Optimized power consumption of just 5mA in standby mode

## ADVANCED CONNECTIVITY

DunaDiag-2 provides **complete and secure connectivity** to simplify your data management

FAST, SECURE  
TRANSMISSION TO  
YOUR SERVER.

CONFIGURATION  
DOWNLOAD AND  
SOFTWARE UPDATE

INSTANT  
CONNECTIVITY  
NEARBY

RECONFIGURATION,  
SOFTWARE UPDATE  
AND DATA CONTROL

## STORAGE & SECURITY

Your data is secure with local SD card storage, intelligent event and data management. Easily customize your events to your specific needs for optimal operation.

*Automotive*

*Military*

*Rail*

*Aeronautics*

*Maritime*

## Main Features

- 2 CAN HS/LS .....
- OTA 2G/3G .....
- Information via accelerometer, magnetometer and gyroscope .....
- Analog and digital input data .....
- GPS location .....
- Bluetooth Low Energy 4.2 .....
- Low power consumption .....
- Many Wakeup sources .....
- 6 LEDs .....
- File transfer via MQTT and SFTP .....
- OS Linux 1GHz, 1Go Ram, 1Go Flash .....
- Wi-Fi® 2.4/5GHz IEEE Std 802.11b/g/n .....
- Micro-SD up to 256Go .....
